

This week your child will receive a flyer about our upcoming event:

"Science Rocks"

We are very excited about our first Hardy Science night and hope that you will join us in the fun!

Please:

- Read the flyer carefully,
- Sign up for your family's preferences on the form inserted. Our hope is that families will explore together supervised by a parent.
- Return the insert to school via backpack by February 15th.

We will then be assigning students/families based on a first come first serve basis, so send them in quickly as some rooms have a limited number of participants.

Please also note that we will be selling pizza beforehand for those interested. Extra flyer's and inserts can be printed from the website.

We hope to see you all there!
